

Precision Hawk

Organization: Precision Hawk

Location: USA and Canada

Challenges

- Developing automated, scalable solutions for Analysis of information captured by the drone
- Providing 24x7 support for key customers
- Developing an online 'Marketplace' for drone based information products

Solutions

- Automated Algorithms to create information products from drone data
- Algorithm 'marketplace' to allow users to request processing to be done over the cloud
- 24x7 support team to provide off-shore support for key customers

Results

- Launch of the 'Algo-Market' on June 1st 2015
- 300+ surveys completed (within 2 months)
- 10 strong off-shore team supporting the GIS processing work
